

TELEPHONE CONTACT INFORMATION FORM

For JCB to be most effective in minimizing your exposure to debit card fraud, we need you to please keep us informed of your current cell phone number, home phone number and home address at all times. In order to update your home address, please use the Change of Address Request form which can be accessed via JCBank.com or by request from Customer Service at your local JCB Banking Center.

Remember: The most efficient contact method, in the event that you are using your JCB Smart Check card and there is a need to verify the validity of a transaction, is your cell phone number. Should the system determine that there is a possibility of fraud a call will be placed to the cell phone number if available.
